

# RADIO & BLUETOOTH® SET-UP

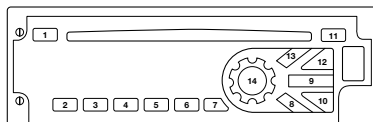

Start using your truck's radio and Bluetooth systems in a few simple steps.

## BASIC RADIO FEATURES

To access AM, FM, WX, SXM (if equipped), iPod, USB, Rear Aux, Front Aux, CD or BT Audio do one of the following:

**Press** the **SRC** button to scroll through the options and select the desired one.

**Press** the **SRC** button and then scroll the source menu by knob rotation or **NEXT/PREV** short presses and then select by short-pressing the knob. CD/MP3, USB/iPod, Front Aux and BT Audio can be accessed only if the radio model supports them and a device is connected/inserted for that specific source.

1. Phone
2. Play/Pause
3. Browse
4. Check/Alarm
5. RPT (Repeat)
6. RDM (Random)
7. ESC (Escape)

9. Scan/ASCN (Autoscan)
10. PREV (Previous)
11. Eject
12. NEXT
13. SRC/PWR (Source/Power)
14. Knob

## PAIR YOUR MOBILE PHONE WITH YOUR TRUCK'S BLUETOOTH SYSTEM

- Press the **PHONE** button on the radio system's control panel.
- Select "Add phone" in the menu.
- Make the mobile telephone searchable/visible in its Bluetooth options.
- Select "MACK Truck" when it is shown in the phone.
- Enter an optional four-figure code in the phone, and the same code on the control panel. A message shows when the connection completes.
